

# WE COLD SOAK OUR BATTERIES

**All batteries less 10%  
Offer valid till April 2010**

**Contact Barloworld Equipment on 031 569 8500**

**Barloworld  
Equipment**

Batteries are cold soaked at sub-freezing temperatures and then tested by starting an equally cold engine.

#### PROVEN TIME AND TIME AGAIN

Our Batteries continue to crank and cycle, delivering optimum reliability, superior performance and the exceptional quality you deserve for a Caterpillar battery!

#### PURE POWER QUALITY FEATURES

Caterpillar premium batteries have unique design features that provide high cranking amps and deep cycle capability.

#### MAINTENANCE FREE DESIGN

Calcium lead alloy in both positive and negative plates reduces gassing and water consumption. Extra-heavy grids and an optimum acid/paste combination provide increased battery life and power in extreme cold and heat.

#### We deliver from every angle - 360° Solutions
